# About SUMMIT

The 6th World ESG Summit & Awards is taking place on 29–30 September 2025 in Riyadh, Saudi Arabia, organized by Gulf Xellence. This global gathering brings together leaders, policymakers, and ESG professionals to exchange insights, share experiences, and explore practical solutions that drive sustainable growth and responsible business practices.

Over two days, the program will address important themes in Environmental, Social, and Governance (ESG). Key topics include renewable energy, sustainable finance, ESG reporting, climate action, circular economy, and responsible governance. With participation from industries such as energy, construction, finance, technology, and agriculture, the summit creates an open space for dialogue and collaboration across different sectors.

The event also reflects Saudi Arabia's Vision 2030, which places strong emphasis on renewable energy, social development, and long-term sustainability. Hosting the summit in Riyadh highlights the Kingdom's growing role in shaping the global sustainability agenda and its commitment to building a resilient and inclusive future.

In addition to discussions, the summit provides a platform for building networks, exchanging knowledge, and encouraging partnerships that can translate ideas into real-world solutions. Together, the conversations and connections made here aim to strengthen the global ESG movement.

## SPONSORS 2025

The logo for Novisto, featuring the word "novisto" in a bold, lowercase, sans-serif font.

Gold Sponsor

The logo for Aji, featuring the letters "Aji" in a bold, sans-serif font, with the "i" having a dot.

Gold Sponsor

The logo for Cognitud, featuring the word "Cognitud" in a sans-serif font, with the "C" in green and the rest in blue.

Gold Sponsor

The logo for Achilles, featuring a stylized green cloud-like icon to the left of the word "Achilles" in a serif font, with the Arabic text "إدارة المخاطر العالمية" below it.

# ABOUT SPONSORS & PARTNERS

**novisto**

Novisto is the sustainability data management and reporting software of choice for global enterprises. By simplifying the process of collecting, auditing, and reporting ESG data, Novisto gives sustainability and finance teams the confidence that their disclosures are accurate and reliable. The company has been recognized by prominent industry analysts Gartner and Verdantix and is a Deloitte 2024 Technology Fast 50™ program award recipient.

Founded in Montréal in 2019, Novisto is backed by Inovia, White Star Capital, Diagram Ventures, Portage, and SCOR Ventures.

**Learn more at <https://novisto.com/>**

**AJi**

AJi Group is the region's leading architecture, construction, engineering, and consultancy services firm, across 13 offices in the region, including four in Saudi Arabia and three in the UAE.

With sustainability and innovation at the heart of the Group's strategy, AJi has been a partner in delivering ambitious sustainability-centric developments such as the Green Riyadh program for urban greening. AJi Group has a dedicated 'Eco-Futurism' vertical that serves all its services and has secured several ISO certifications for delivering advanced technology and services essential for efficient and sustainable project management.

With a legacy of over 60 years, a professional team of 1,300 employees across 25 markets, and a commitment to shaping the future, AJi Group issued its first GRI-certified ESG report last year, showcasing its efforts in enhancing green building designs and fostering an inclusive workplace, underpinned by strong governance standards.

**Cognitud**

Cognitud is a global sustainability consulting firm headquartered in India, with offices in the UK, USA, and UAE. We work with organizations worldwide to integrate sustainability and ESG principles into their operations, empowering them to become not just compliant but truly climate-resilient, socially responsible, and future-ready. At Cognitud, we believe that sustainability is a competitive imperative, which is why we act not just as consultants, but as long-term partners in transformation.

Since our inception, we have helped businesses navigate complex environmental regulations, emerging climate risks, and rising stakeholder expectations. Our strength lies in delivering tailored strategies that are rooted in data, aligned with international sustainability frameworks, and designed to unlock long-term value. Whether a company is beginning its ESG journey or accelerating toward net zero, Cognitud offers the insights and support needed to achieve measurable outcomes.

## ABOUT SPONSORS & PARTNERS

Our advisory services span the full breadth of sustainability, ranging from carbon accounting, science-based target setting, and decarbonization roadmaps to ESG assessments, responsible supply chain integration, and transparent sustainability reporting. We work with clients to advance circular economy practices, improve biodiversity outcomes, and implement robust water management programs. Our cross-functional teams combine technical expertise with strategic foresight, ensuring every solution is both actionable and aligned with business goals. We support our clients in enhancing brand equity, mitigating risk, attracting sustainable finance, and staying ahead of evolving ESG regulations. We design sustainability strategies that are not only globally relevant but locally resonant, reflecting regional priorities such as resource stewardship, economic diversification, and social cohesion.

Join us in shaping a world where businesses thrive by doing good. Visit us at our booth to discover how Cognitud can help your organization lead with purpose and impact.

## ABOUT SPONSORS & PARTNERS

Yellow Door Energy provides sustainable energy solutions for businesses in the Middle East and Africa. In Saudi Arabia, we help commercial and industrial companies reduce their energy costs, lower carbon emissions, and contribute to the Kingdom's Vision 2030 and the Net Zero Emissions by 2060 Target.

Our solar leasing model offers a zero-capex, turnkey solution that enables companies to adopt solar energy without upfront investment. This approach allows businesses to save money, cut emissions, and showcase their commitment to sustainability, while we manage the financing, design, installation, and operation and maintenance (O&M) of the solar systems.

Globally, Yellow Door Energy has developed over 400 megawatts peak (MWp) of solar projects across seven countries. In the Kingdom, we have partnered with five leading companies, including SIG and Tamimi Markets, to deliver 10 MWp of solar projects across 13 sites in Dammam, Jeddah, and Riyadh.

Our Riyadh-based team of energy experts provides dedicated support to businesses embarking on their sustainable energy journey. Backed by our world-class shareholders – Actis, the International Finance Corporation (IFC), Mitsui & Co., Ltd., and The Arab Energy Fund (TAEF) – we combine international expertise with local presence to deliver reliable, cost-effective, and sustainable energy solutions for Saudi Arabia's future.
